 SUSTAINOR

Prodan serves as a valuable link across multiple industries, delivering comprehensive solutions that enhance customer value through collaborative partnerships.

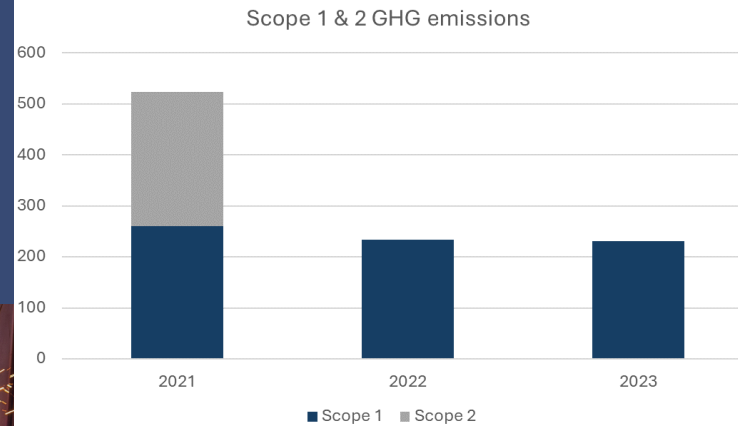

In a glance

Located in Randers, Denmark, Prodan specializes in metalworking and manufacturing. It has earned a reputation as a dependable supplier of high-quality metal components across various industrial sectors.

Prodan is renowned for providing cutting-edge manufacturing solutions. These innovative approaches prioritize the production of high-quality, cost-effective products while employing sustainable manufacturing processes.

Emissions

Prodan places utmost importance on measuring, reporting, and mitigating both Scope 1 and Scope 2 greenhouse gas (GHG) emissions.

Adopting a proactive stance, Prodan continually seeks ways to reduce its carbon footprint through the adoption of innovative technologies and the utilization of renewable energy sources.

In 2023, the company achieved a notable 56% reduction in Scope 1 and Scope 2 emissions compared to 2021, with Scope 2 emissions effectively nullified owing to the procurement of 100% renewable electricity.

Commitments

Prodan purchases 100% renewable electricity. By making this eco-conscious choice, a remarkable dedication to reducing its environmental impact is demonstrated.

Since 2021, Prodan has achieved a significant reduction of its direct emissions, which is calculated at an impressive 56%.

In the coming years, Prodan pledges to enhance the accuracy of its Scope 3 calculations, marking a substantial advancement in its dedication to environmental responsibility.
